LRC32 – Interior & Dashboard Cleaner

The Interior & Dashboard Cleaner is a water-based cleaner for cleaning down and removing dirt and grime from plastic interior door cards, dashboards, and hard plastics in vehicles.

The interior & dashboard cleaner has no specific aroma to it but has a high foaming deep cleaning action to handle the toughest stains and grime possible that can get embedded deep into grained plastics.

We designed the interior & dashboard cleaner to handle all types of plastics within cars and commercial vehicles, not to just clean them, but to help brighten the plastics as it cleaned and to bring them back to life again.

Depending on how dirty and grubby the plastics are your cleaning will determine how this is cleaned. If they have just light surface dirt, then you can spray the solution onto a cloth and wipe over the surface to be cleaned and wipe away any dirt residue as you go and then dry with a separate cloth.

If your item has a lot more ingrained dirt and grime, then a different approach is required along with cleaning tools to help you, like stiffer brushes or bamboo fibre applicator pads.

For very dirty plastic, it's advised to spray the solution on, agitate the surface and then leave to dwell for a few moments, this will allow the special cleaning agents to work into the dirt and grime and break this down to make removal a lot easier and quicker.

Once you have done this you can then spray on more solution and give the surface a harder scrub, with heavier grained plastics a brush is best as it will get deep into the grained areas to remove all dirt and grime.

Do not allow product to sit on the surface and dry without cleaning and removing the solution.

The product leaves no soapy residue behind so no additional work is required, if you wanted to wipe over the surface with a damp cloth you can do this as well, then you can apply an anti-bacterial coating LRC31 to give your plastics a germ free surface.

Take a look at the [YouTube Video](#) about this product.

Available sizes, 100ml – 3.4 fl oz, 250ml – 8.5 fl oz, 500ml – 17 fl oz, 1ltr – 34 fl oz, 5ltr – 176 fl oz

Use Within, Use within 24 months of purchase.

Manufacturers Warranty 12 months from point of sale.

Temperatures, do not allow to freeze or go below 7 °C.

Before Use, always check in a small hidden area before using to ensure its suitability for the leather.

Colour, a blue liquid.

Smell, no aromas added.

Formula, water-based plastic cleaning solution.

Skin Allergies, if you have skin allergies always wear gloves, wear goggles when applying.

Cautions, Use Harmful if swallowed. Keep out of reach of children, may cause skin irritation. Seek medical attention at once, do not induce vomiting.
