LRC29 – Hybrid Fabric Cleaner (& Carpets)

The Hybrid Fabric & Carpet Cleaner is used to deep clean fabrics and carpets, by spray application, then vacuum off.

Being a water-based fabric cleaner, this hybrid fabric cleaner really does deep clean into the fibres.

Can be sprayed directly onto the surface then agitated in with a brush and then vacuumed off leaving behind a fresh clean looking fabric surface.

The fabric cleaner has a great foaming cleaning action to deep clean and remove all types of stubborn stains from fabric seats and carpets, capable of removing oil stains, grease, food stains and drink spills.

It's an ultra-safe to use fabric cleaning solution.

- **Ultra-Safe**
- **Deep Cleans Fabrics & Carpets**
- **Brightens Colour**
- **Removes All Stains**
- **Works on faux leather**

Always check in a small hidden area before use.

Application is easy, vacuum off the seats or carpets to remove any loose particles of dust and debris, spray a generous amount of hybrid fabric cleaner, allow to dwell for a short period of time then agitate with a medium firmness bristle brush like a bruce brush or soft nail brush.

Continue to work the solution into the fibres so it gets to the bottom of all fibres then vacuum off the liquid leaving behind a much brighter cleaner fabric, for very stubborn stains repeat this process until the item is cleaned thoroughly.

On very stubborn stains, you can spray the cleaner directly onto the fabric to agitate it and leave for a couple of minutes to dwell, this will allow the cleaning agents to work away at the dirt and grime to help lift it away better. Once it has been left for a while, spray some more on then scrub in with the brush and then vacuum off to leave a clean fresh smelling fabric or carpet once again.

As with any product you should always test in a small hidden area first before using to ensure its suitable for the fabric its being used, if colour is released stop at once and clean with water to dilute the cleaning solution on the surface.

Take a look at the [YouTube Video](#) about this product.

Available sizes, 100ml – 3,4 fl oz, 250ml – 8.5 fl oz, 500ml – 17 fl oz, 1ltr – 34 fl oz, 5ltr – 176 fl oz
