## LRC60 – Soft Touch Finish

The Soft Touch Finish is a clear jelly like product to apply to fashion items to give them a luxury silky soft touch finish.

The soft touch finish has added ingredients that gives a natural soft feel to leather and subtle sheen level.

It gives the leather a super fresh look and feel, with a nice soft sheen level.

Soft touch finish, helps prevent damage happening to protect the leathers surface as it provides extra slickness to the leather skin allowing clothing to slide over the surface easier.

With leather fashion items, this produces the perfect polished surface to your favourite leather handbags, purses, wallets, briefcases and leather jackets.

It's the perfect solution for leather shoes, giving them an amazing coating of protection, super slick to the touch and a stunning sheen.

Application is simple

Apply the Soft Touch Finish to a dry applicator pad and gently massage into the leather in a circular motion, allow to dry as normal and then simply buff up for a fantastic super soft finish on your leather and amazing protection.

You can use a super soft extra-large shoe buffing brush to buff the surface. Providing a luxurious feel and sheen to your leather.
